THIS IS UNEVALUATED INFORMATION

25X1X

1. The airfield between Vasalemma (59-16N, 24-12E), Estonian SSR, and the Baltic seashore, had an E-W concrete runway, exactly 200 x 4,000 feet. The southern concrete taxiway loop, 25 feet wide, connecting the two runway ends, was completed by April 1947. The northern taxiway loop was still under construction. It was planned to concrete a large area on the southern edge of the field.
2. A farmhouse, a flight control station, and some log houses were not far from the field.
3. The field was occupied by 10 to 15 twin-engine aircraft, 10 to 15 fighters, and two or three biplanes.
